

SYNCRONESS INC is seeking a full-time **SENIOR SOFTWARE ENGINEER**. The Sr. Software Engineer reports to the Director of Embedded Systems. The Sr. Software Engineer will have direct technical communication with clients and their customers and provide insights for future improvements. Some of the devices we work on may be class 1 - 3 medical devices. An ideal candidate will have a 'can-do' attitude, enjoy problem solving and be able to develop and maintain positive working relationships with our clients and internal staff.

SYNCRONESS INC is a product development firm located in Westminster, CO. We serve a wide variety of clients representing industries such as Aerospace, Defense, Oil and Gas, Medical and Green Tech. Synchroness prides itself on delivering exceptional quality and providing unique blends of resources to achieve success on cutting edge products. We have capabilities in Mechanical, Software, Hardware and Embedded Systems Engineering and are able to drive a project to completion from A to Z.

SENIOR SOFTWARE ENGINEER

SYNCRONESS is looking for a self-motivated team member that enjoys a variety of challenges in the workplace.

This position will require the candidate to:

- Investigate critical failures of product and provide reasonable work-around and/or long term solutions in a timely manner.
- Mentor junior staff
- Communicate directly with clients and their customers to relay critical product and project information.
- Lead and work within an extremely dynamic and collaborative team to drive project success.

A successful candidate will be:

- Able to work in a fast paced environment with deadlines
- Flexible in their workload and allocation
- Detail-oriented with excellent written and oral communication skills
- Well-organized
- Able to tackle complex problems and develop creative solutions
- A detective capable of working in existing code bases

Experience Requirements:

- 10 or more years of software engineering experience, preferably in a leadership role
- A minimum of a Bachelors Degree in Computer Science, Computer Engineering or Electrical Engineering
- Masters Degree preferred.

Desired Technical Qualifications

- C/C++
- Windows Programming
- C#/ VB / ASP / .NET
- Java
- Embedded Linux
- Relational Database Design
- RTOS
- Medical Device experience or exposure to the following:
 - ISO 13485
 - ISO 9000/9001
 - IEC 60601 – 1-4

Compensation: \$90-110k

Qualified applicants can submit their resume or CV in response to this advertisement, or to SW02@synchroness.com
