**Boulder Innovation Center Brings Experience to BioScience Commercialization
Warren Mauter Joins Boulder Innovation Center as BioScience Program Manager**

BOULDER, CO. (May 31, 2011) – Warren Mauter has joined the Boulder Innovation Center as the Program Manager for the Boulder Innovation Center’s BioScience Program.

The Boulder Innovation Center’s BioScience Program works closely with the University of Colorado and the Colorado School of Mines to understand the potential of promising technology as well as the goals and wishes of the scientists behind the research. With this understanding, the Boulder Innovation Center assembles groups of industry experts capable of forming a company based on the technology. “Warren’s industry expertise and years of M&A experience will help take the Boulder Innovation Center’s BioScience Program to the next level. We are pleased that Warren will apply his expertise to fostering innovative companies and creating jobs along the Front Range” remarked Tim Bour, Executive Director, Boulder Innovation Center.

Warren is an experienced executive with over 20 years of international management and consulting experience gained while working with established medical technology and material science companies. A cornerstone of his career has been the development and execution of strategic initiatives ... technology assessment, acquisition/divestiture, strategic partnerships and licensing. Warren holds degrees in Chemistry, Material Science Engineering and an MBA from the University of Colorado. He is a graduate of the Stanford Graduate School of Business Executive Program.

About the Boulder Innovation Center

The Boulder Innovation Center is one of America’s premier entrepreneurial support organizations. With its highly specialized team of mentors and advisors, the Boulder Innovation Center defines a new model for business incubation across key industry sectors holding the most promise for the community, global economies and the environment. Located in one of the most dynamic entrepreneurial ecosystems for early-stage companies – Boulder, the Colorado School of Mines and the University of Colorado – the Boulder Innovation Center blends the resources of business and academia to optimize opportunities for the technologies and companies of the future.
